

Turnaround Time For Routine Chemical Analysis Samples¹

Analysis	Standard Service(Working Days)	PRIORITY Service ² (Working Days)
CHN	1	Same Day
CHN (Oxygen Sensitive)	5	N/A ³
S (Combustion)	1	Same Day
Cl	3	1
F	3	1
Water (Karl Fischer)	5	1
X-Ray Diffraction	5	2
FTIR	10	2
TGA	5	5
Mass Spectrometry	5	N/A ³
Residue on Ignition	10	3
Heavy Metals (USP)	10	5
Loss on Drying	5	3
All GMP Analyses	10	3
1	Quoted times are in working days from date of receipt at Prevalere. These times are applicable to the analysis of <u>routine samples</u> and do not include samples requiring method development, method validation or samples submitted as part of problem-solving projects.	
2	Requests for rush service must be approved in advance by the Chemical Analysis Group at Prevalere to insure proper scheduling. All " <i>PRIORITY Service</i> " will incur a 100% surcharge. This surcharge does not apply to high volume clients currently under contract.	
3	<i>"PRIORITY Service"</i> is not routinely available (N/A) for analyses using Mass Spectrometry or for samples requiring special handling such as drying or oxygen sensitive handling. Please contact Mr. Mike Lewis to discuss availability.
